WORK EXPERIENCE:

STEAG Energy Services (India) Pvt. Ltd. | December 2025 - Present (8 months) · Noida
Technical Assistant – Training & Advisory Department

As a Technical Assistant at STEAG Energy Services (India) Pvt. Ltd., I support the Training & Advisory team by coordinating technical workshops, assisting in training programs, and ensuring the smooth execution of day-to-day operational activities. My role involves working with cross-functional teams to improve workflow efficiency, maintain data accuracy, and provide technical support for various engineering and training initiatives.

Key Responsibilities:

- Support the planning and coordination of technical training programs and workshops
- Prepare, organize, and maintain technical documents, reports, presentations, and training materials
- Assist in data management, documentation control, and process tracking
- Coordinate with internal teams to ensure timely execution of training and advisory activities
- Monitor task progress and contribute to process improvements for operational efficiency
- Provide administrative and technical support to project teams as required
- Ensure accuracy, confidentiality, and compliance with organizational standards

Alongside my professional responsibilities, I am pursuing a Bachelor of Computer Applications (BCA) from IGNOU, strengthening my knowledge of information technology, data management, and computer applications. I am passionate about continuous learning, problem-solving, and leveraging technology to improve business processes while contributing effectively to organizational success.

Salcomp Manufacturing India Pvt . ltd | October 2024 - December 2025 (1 year 3 months) · Noida
QA Inspector - Process Quality Control (PQC) | Electronic Manufacturing | Continuous Improvement

As a QA/QC Inspector at Salcomp India, I was responsible for ensuring product quality throughout the manufacturing process by conducting in-process inspections, identifying defects, and maintaining compliance with quality standards. I collaborated with production teams to improve quality, reduce defects, and support continuous process improvement.

Key Responsibilities:

- Conducted in-process quality inspections to ensure compliance with manufacturing specifications
- Identified, analyzed, and reported quality defects to support corrective and preventive actions (CAPA)
- Maintained inspection records and prepared quality reports for process monitoring
- Collaborated with production and engineering teams to resolve quality-related issues
- Ensured compliance with SOPs, quality standards, and safety requirements
- Supported continuous improvement initiatives to enhance product quality and operational efficiency

Impact:

- Contributed to maintaining high product quality and reducing manufacturing defects
- Supported efficient production by identifying quality issues at early stages
- Ensured accurate documentation and adherence to quality management standards

Achievements:

Recognized as a Star Performer in September 2025 — reflecting a consistent approach of staying accountable, paying attention to detail, and always striving to deliver the best.

STRENGTH

- Confidence, positive attitude, hard & sharp work to achieve desired goals.
- Having good communication skill.

Having a great sense of responsibility, enjoy the challenge of new situations and expect to make a positive contribution in the position you will offer.
